## **NEW ENGLAND** SCI-TECH

Visit our booth in the Atrium for a large version of the puzzle and an answer kev.

20. a term for voice modulation

22. circuit allows certain frequencies to pass 24. QSL cards and awards on the wall

26. ham term for Astatic D-104 microphone

## 1. best ham radio convention in New England

- 2. a condition where XC = XL, a tuned circuit
- 3. a filter that passes a range of frequencies
- 4. a message or messages sent by radio
- cable connecting a radio to an antenna
- 6. separation between repeater input/output 7. piezoelectric device resonates at a frequency
- 10. a multiple of a fundamental frequency
- flow of electrons in a circuit
- 14. electrically charged region of the atmosphere standard unit used to measure frequency 19. opposition to the flow of electric current BO CO SO SO SO In what year did Gugliemo Marconi invent what called "the wireless telegraph"?

## ACROSS:

- 8. theoretical antenna used to calculate gain
- 9. basic unit of electrical current
- 11. receiver's ability to hear weak signals
- 13. transceiver capable of SSB, CW, AM, FM
- 15. slang for an amateur radio license
- 16. transmits 1-way signals for propagation use
- 18, test instrument used to observe wave forms
- 21. chatting informally via radio
- satellite-to-earth communications
  - 25. multiple stations calling a DX station
  - 27. experienced ham tutors newer hams
  - 28. stores energy in an electric field
  - 29. unit of digital-signal speed
- 30. term for home-built radio equipment
